why companies  
have chosen  
Sarah Keiser to  
help them plan  
for success!

**With a  
plan**

# Instructions

## THE PLANE

- Flip the paper over so that the printed fold lines are facing down.
- Fold the corners up along the outside fold lines and crease down. Repeat for the next set of folds.
- Fold the nose back, as shown.
- Fold up along the center line so the lines and graphics are on the outside.
- Finally fold down each wing and fold up the corner flaps.
- Throw briskly and slightly angled up.

## THE ADJUSTABLE FLAPS

- Cut on sides.
- Fold up to make the plane rise...fold down to make the plane drop.

Note: When printing on printers that require a large bottom margin, the adjustable flaps may not print.

## THE STICK-UP TAIL

- Bring the two angled fold lines together.
- Crease along the top.

## THE FASTENING CLIP

- Cut on the sides.
- Fold to one side to hold the plane together.
